

How To Change Your Account Details

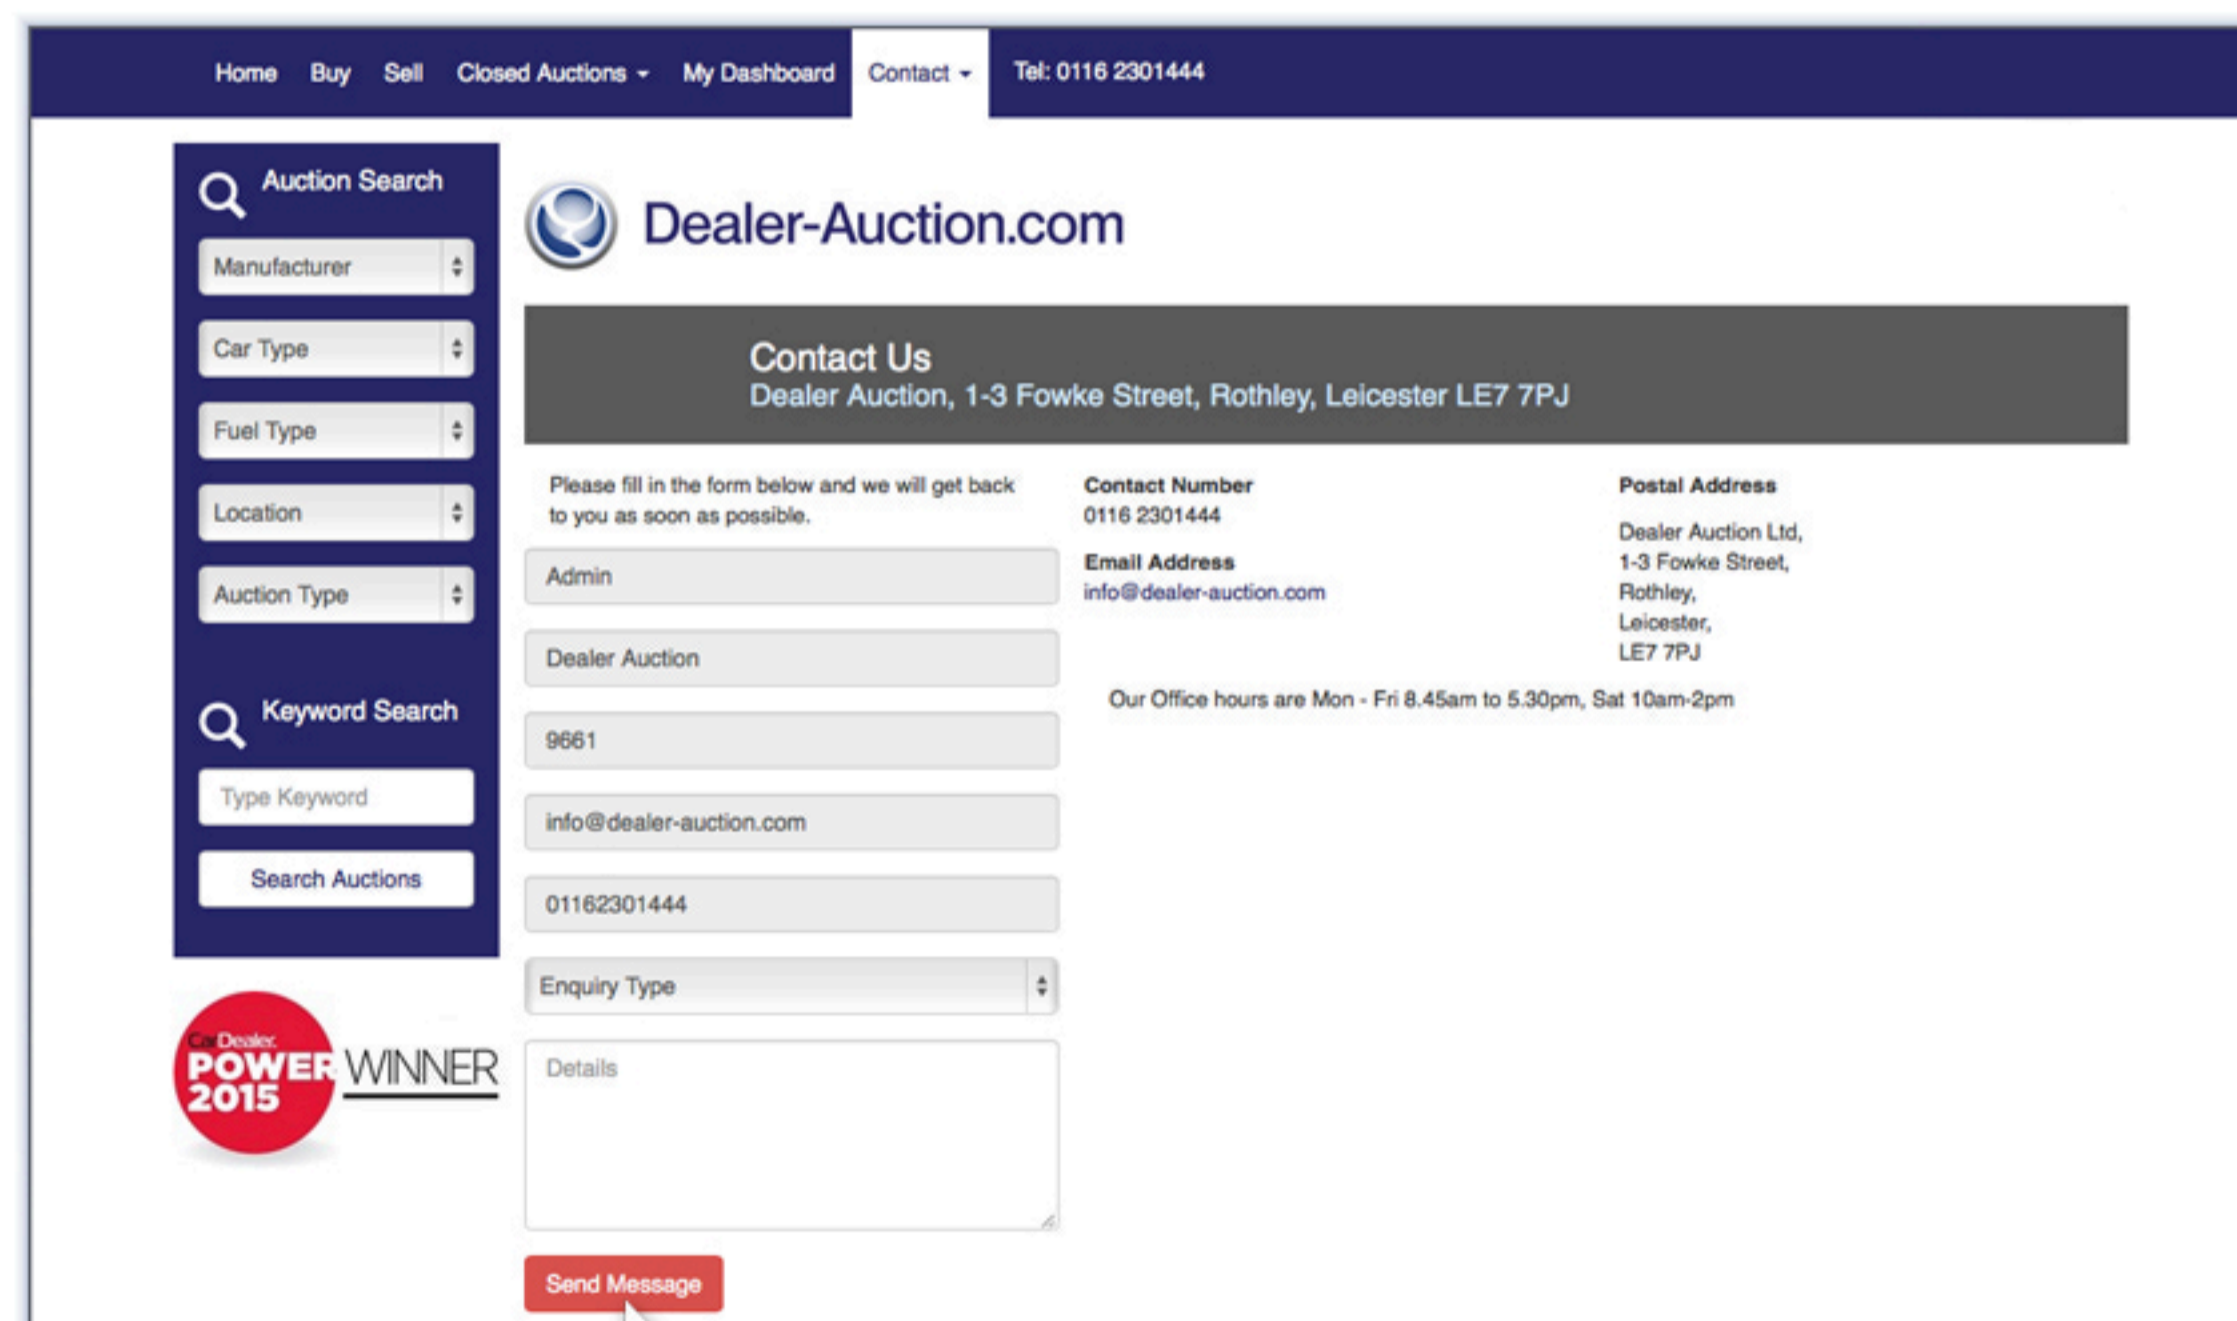

Changing your account details is easy. All you will need to do is send us a quick email through the website with the changes that you would like to make.

To start you will need to click 'Contact', a drop down box will then appear with two options. You will need to click 'Contact Us' (pictured below)

This will then open a new page (pictured below) that will have all of your current details pre-populated into a form. In the details box at the bottom of the page you will need to type a short message explaining that the account details need to be updated and then type out what they need to be changed too.

Once you have done this you will just need to click 'Send Message'. This will then send all of the information across to us that we will update upon receipt of the request.

If you need any further help or assistance then please give a member of the Dealer Auction team a call on 0116 230 1444
